[linkedin.com/in/fizatahir](https://www.linkedin.com/in/fizatahir)

CAREER OBJECTIVE

AI Marketing Intern at FlyRank AI with hands-on experience using AI tools for advertising analysis, competitor research, and content ideation. Final-year BS Computer Science student bringing a rare mix of technical fluency (Python, data analysis, databases) and applied AI-marketing skills — able to both run AI-assisted campaign research and understand the technology behind it. Looking to grow into a full-time AI marketing role where I can drive data-informed content and campaign strategy.

CORE COMPETENCIES

AI-Assisted Marketing: Prompt-driven research, AI content ideation, generative AI tools (ChatGPT, Claude)

Advertising & Competitor Analysis: Live campaign analysis, messaging & positioning audits, competitive benchmarking

Market Research: Trend spotting, audience insight gathering, data-backed strategic recommendations

Content Strategy: Content ideation, campaign differentiation, client-focused case studies

Data & Technical Foundation: Python, Pandas, NumPy, SQL — turning data into marketing insight

PROFESSIONAL EXPERIENCE

AI Marketing Intern — FlyRank AI

2026 – Present

- Conduct AI-assisted market, competitor, and advertising research to support client strategy.
- Analyze live advertising campaigns to identify messaging patterns and opportunities for differentiation.
- Apply AI tools to accelerate market research, content ideation, and strategic insight generation.
- Contribute to client-focused marketing case studies as part of practical internship assignments.

EDUCATION

BS Computer Science

2023 – 2027 (Expected)

Government College Women University, Faisalabad (GCWUF)

CGPA: 3.54 / 4.00 • Final Year Student

ADDITIONAL TECHNICAL SKILLS

Web Technologies: HTML, CSS, JavaScript

Databases: SQL / MySQL, PostgreSQL, Supabase

Machine Learning: Pandas, NumPy, Scikit-learn (fundamentals)

Programming Languages: C#, Java, Python, C++

Tools & Platforms: Visual Studio, VS Code, Git / GitHub

ACADEMIC PROJECTS

Trendore — Clothing Store Website *(Java, HTML, CSS)*

- Shipped a working e-commerce storefront — from product browsing to cart checkout — with a responsive front-end designed to reduce friction in the buying flow.

College Management System *(C#, SQL Server)*

- Replaced manual record-keeping with a working desktop system, automating student, course, and faculty record management end-to-end via CRUD operations.

CERTIFICATIONS & TRAINING

- FlyRank AI Internship — AI Marketing Track (2026)

ADDITIONAL INFORMATION

- Comfortable working independently and in team-based project environments.
- Languages: English, Urdu, Punjabi.
